MindLink Integrations

Connect business systems with messaging. Through our Restful API and our off-the-shelf integrations, organizations can connect virtually any system to their existing, supported, UC systems. Examples of UC integrations include:

- Social Media/RSS feeds
- Email
- Collaboration portals e.g. SharePoint
- Any other internal system via the MindLink API

Powerful integrations _without_ complex coding

Our API is designed to support developers to create the most powerful of integrations with minimal code.

The MindLink API also allows for the configuration of throttles which manage the flow of messages in and out of the system.

UC Support

MindLink Integrations currently support the following Unified Communication (UC) systems.

- Microsoft Office Communicator 2008
- Microsoft Lync (2010, 2013)
- Skype for Business (2015, 2019)
- Skype for Business Online (O365)

Should your system not be specified don't hesitate to contact us.

Enrich your UC experience and _get in touch today!_
