MindLink Anywhere

Stay connected and productive from anywhere, with access to Skype for Business served securely over the web using HTTP over TLS. MindLink Anywhere brings all your contacts and chatrooms in a single window, tailored to your preferences. It is packed with a wealth of messaging features that enhance the capabilities of the underlying platform and enrich the UC experience for both the user and the organization.

Feature-rich client

Going beyond the usual of sending messages and alerts. MindLink Anywhere offers a LiveStream view, allowing users to follow multiple conversations at once. A highly customizable interface lets you expand, collapse or resize the conversation window, and set your sound and/or alert preferences. You can even choose if you want to mark messages as read yourself, and there's more...

Supported clients & systems

MindLink Anywhere currently supports the following Unified Communication (UC) systems.

- Microsoft Lync (2010, 2013)
- Skype for Business (2015, 2019)
- Skype for Business Online (O365)

MindLink Anywhere can be accessed using the following mainstream web-browsers.

- Google Chrome
- Mozilla Firefox
- Microsoft Edge
- Internet Explorer 10 & 11
- Safari (Mac and Tablet)

Should your system not be specified don't hesitate to contact us.
